The bid will commence April 16, 2010 and will expire April 15, 2011 or such earlier date as the Company may complete its purchases. The price at which the Company will purchase its shares will be the market price thereof at the time of acquisition. Common Shares acquired by the Company will be cancelled, except for up to 800,000 Common Shares which will be held for the sole purpose of issuing upon the valid exercise of stock options under the Company's Incentive Stock Option Plan. The Company has 54,976,258 Common Shares issued and outstanding as of April 12, 2010. During the previous 12 months, the Company acquired 2,893,487 of its Common Shares at an average price of \$0.39 per share by way of a normal course issuer bid.

The Board of Directors of the Company believes that the current market price of the Common Shares may not fully reflect the value of the Company's business and its future business prospects. As a result, the Board has concluded that the purchase of the Common Shares may represent an appropriate and desirable use of the Company's funds and further enhance market stability.
